

ESTIMATES INVITED

"ARRASTO" Cia. de Pesca do Centro de Portugal invites tenders from national shipyards, open until midday of the 19th. March, for the conversion to trawler of the present hulk, useless on account of lack of stability, seaworthiness and other specific attributes, which is at present drawn up on the slipway at Figueira da Foz.

The specification includes not only towage and provisional ballasting but all necessary work to correct the mistakes in design and execution made by the Dutch technicians and the shipyard.

The bases for the specification are as follows:-

- a) The plans for conversion and re-arrangement of the structure.
- b) The written specification
- c) Several drawings made in Holland in connection with the present structure which cannot be guaranteed and which should be corrected.

These details will be made available for the information of all interested parties - as well as any explanations which may be required during weekdays from 12-30 - 14 hours in Lisbon,

Praça do Principe Real, 23-29 Esq.

Estimators will require a pass in order to examine the vessel at Figueira da Foz, and this will be supplied with the specification and drawings.
