The Secretary

LONDON

"INVICTA" ex "GEO G"

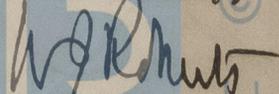

Dear Sir:

We would refer to previous correspondence and cables concerning the conversion of this T2 tanker to a bulk carrier and its retention in class.

We have now been advised by the Owners that the vessel is to be classed by the American Bureau. In this connection the Owners would appear to have been motivated in their decision by the extra costs quoted by the Builders. It was explained to the Owners that the notation "Strength for Heavy Cargoes" is a requirement in excess of those in the American Bureau class.

During our initial discussions of this case with the Naval Architects, G.T.R. Campbell & Co. of Montreal, we were advised that it was the Owners desire to have this notation. We of course we acted accordingly.

Yours faithfully,

  
Chief Representative  
Principal Surveyor
