With reference to your letter of yesterday respecting the S.S. "EMBLETON", this vessel was actually under survey at the time of our Return dated 27th August, ~~when~~ ^{and} the freeboard was verified, it was expected that the equipment would have been dealt with. However, Wilson & Burletson were unable at that time to get the anchors on board and we closed our entry in the Surveys Book with a letter which Mr. Macdonald wrote to London also on the 27th August. Our report on the equipment went forward yesterday and has no doubt reached your hands before this.

Kind regards.

Yours sincerely,

W. Davies

J.F. Spinks Esq.,

London.
