Classn(S)
RNC

Dear Sirs,

Steam Tanker "GENERAL LAS HERAS"

I am obliged to you for your letter of the 19th instant and, in reply, am pleased to say that the Committee will be prepared to agree to the Owners' proposal to postpone the Main, Donkey Boiler and Steam Generator Surveys until some time before the end of next month, when also the main condenser ferrules require to be renewed.

The items of the Engine Survey which are outstanding according to our records are the following:-

Examination of:-

Both main turbines with reduction gearing, thrust and intermediate shafts.
Main condenser
Both extraction pumps
Both main feed pumps and aft auxiliary feed pump
Feed heaters
Bilge, ballast, General Service and lubricating oil pumps and O.F. transfer pumps.
Pumping arrangements
Main and auxiliary pumps and heaters for O.F. burning plant.
Forced draught fans.
Evaporator safety valves to adjust.
De-superheaters
Both diesel generator engines with their fresh water circulating pumps and coolers.
Air receiver.
Diesel driven air compressor
Steering machinery
Windlass
Fire Extinguishing Apparatus
Daily Service O.F. tanks.

Yours faithfully,

The Surveyors,
BUENOS AIRES.

Clerk to the
Classification Committee.
