Dear Sir,

Motorship "HELGA SMITH"

This ship is reported in the shipping papers as having sunk off Newfoundland due to flooding of the engine room because of a fracture, previously reported, in the shell plating.

In view of the ship's recent history of shell and deck fractures, it has been considered desirable to obtain all possible information on the circumstances of the casualty and to this end the Society's Surveyor at St. John's, Newfoundland, has been asked by cablegram to report to this office.

A copy of the message which has been sent to him is enclosed for your information.

Yours faithfully,

Deputy Clerk to the
Classification Committee.

D.S. Forsyth Esq.,
MONTREAL.
