Ans'd.....

Dear Sir,

"HIYEHARU MARU"

With reference to your classing letter of the 5th ultimo, we wish to inform you that the port inboard 260 KW generator engine was in fact examined at this time, and it is much regretted that this was not made clear in our report.

Arrangements have been made for the remaining oil fuel transfer pump to be opened up and examined on vessels return Japan by March this year.

Yours faithfully,

For the Surveyors.

The Secretary,  
LONDON.

КОММУНИКАЦИЯ  
№ 23/2/62

КОММУНИКАЦИЯ

КОММУНИКАЦИЯ

Вопрос касается того, как можно было бы избежать  
необходимости вносить изменения в устав  
и в то же время обеспечить возможность  
для акционеров вносить свои вклады  
в капитал общества.
