

"HEMBURY"

The Antwerp Surveyors have now forwarded First Entry reports on the boilers and electrical equipment as requested; and these are in order except that particulars of safety valves on the main boilers are not understood.

For a heating surface of 3002 sq. ft. (as given in the plan) the Rule size for the safety valves is 19.24 sq. inches.

Information regarding pumping arrangements as detailed in endorsement dated 25. 7. 47 is awaited.

IT IS SUBMITTED the Surveyors be advised accordingly.

Amend HS to 6004
and MN to 431.

fw. 20/8/47.
