7.58

s) and/or conditions  
under review

Special Survey due 6.60.  
Last examination in drydock 7.58.

ending items  
tly held)

Hull subject:- see endorsement 12.9.58.  
Machinery limit by 6.60:- see endorsement 21.8.59.

ements  
r agreed

On 21.4.60 the Buenos Aires Surveyors advised that the Owners had applied to the Naval Base at Puerto Belgrano for a drydock and the Authorities had promised a date for the end of 1960. On 29.4.60 the Buenos Aires Surveyors were instructed to inform the Owners that the Committee could not contemplate so long ~~an~~ an extension, in view of the fact that the ship was last seen in drydock as long ago as 7.58 and the Owners were to state a better proposal. On 7.6.60 the Buenos Aires Surveyors stated that the Owners had advised them that provisional arrangements had been made to drydock the ship about the end of 7.60 (24 months after last examination in drydock). Arrangements for Special Survey (or General Examination) were not stated. On 26.6.60 the Buenos Aires Surveyors were informed that the Committee agreed to the Owners proposal on the understanding that the arrangements would be adhered to.

posal

The Buenos Aires Surveyors now cable that the ship is being withdrawn from service at the end of 8.60 in preparation for survey pending availability of drydock anticipated to be in 9.60.
