

COPY.

31st March 1920.

Dear Sir,

I have to acknowledge the receipt of your First Entry reports on the hull and machinery of the steamer "LENNEP", built by the Act. Ges. Neptun at Rostock in 1915, and to thank you for your attention in the matter.

It would be very desirable that copies of the approved plans, if available, should also be forwarded in this and any other similar instances, in case the question of classification in the Society's Register Book should arise at any future date.

I am, Dear Sir,

Yours faithfully,

Secretary.

Geo. Dykes Esq.,

HAMBURG.
