

Steel s.s. "LEASIDE" ex "KILDAVIN", No.76467 in the Register Book; 634 tons gross; built at Middlesbrough by Smith's Dock Co., in 1918, and submitted for classification with this Society in 1921 and classed 100A1 S.S.No.3-10.21.  
S.S.No.1-26.  
-----

It was recently reported that this vessel had changed Ownership, and the usual form of enquiry was sent to the new Owners, in order that the correct particulars of Ownership might be entered into the Register Book.

From their reply it appears that they have decided to change the name to "GALATA"; also that the vessel is to be altered to a motor ship and a Sulzer motor of 400 HP installed.

It is submitted the Society's Surveyors at Genoa should be informed as above, and requested to ascertain when and where the new motor is to be fitted, and whether the Owners desire to retain the classification of the vessel with this Society.
