Lloyd's Register of Shipping.

Port Kobe.

10th March, 1941.

This is to Certify that

Y. Hamada,

the undersigned Surveyor to this Society did at the request of the Owners' Representative, survey the

S/S "ZUISYO MARU",

5288 tons gross, of Tokyo,

when at the Tama Dry Dock, Tama, on the 28th February, 1941, and upon examination, found the bottom and all outside parts below the load water line, in good condition, fair wear and tear excepted, and free from breakage or damage, with the following exception:-

Stern frame was found fractured at the sole piece and has now been satisfactorily repaired by electric welding, but, it is recommended that it be specially examined at the next dry docking.

(For Y. Hamada.)

Surveyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:-
"While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
