ENGINEER SURVEYOR

Reference
sn.(S).

Dear Sir,

In reply to your letter dated the 29th. May with regard to the "JURANDY" & "CONSUELO" we have to report that the former ship position is as previously advised except that the B.V. Office here denies having accepted the ship for Classification, but we still believe the B.V. issued some sort of provisional Load Line Cert. if nothing else. She is still in her damaged state at Salvador, Bahia.

The "CONSUELO" is reported to be discharging her present cargo at Ceará, North Brazil, where it is stated her B.V. Classification will be completed; the information having been received from the B.V. Surveyor at this port.

There would appear to be no doubt whatsoever that both ships have not complied with the Society's Rules and we believe the Owners have no intention of endeavouring to put these two ships back into Lloyd's Register Class.

Yours faithfully,

The Secretary,
London.

E. Hawley
