ted for oil fuel 2.20 F.P. above 150F

due Screwshaft Survey due 6.52.
Boiler Survey due 10.52.
Last seen in dry dock 8.51.
s of overdue - class suspended' assigned 1.5.53.

to be held vessel still laid up.

Postponement of the above surveys until the end of March 1953 was
ed to on the definite understanding that this arrangement was
red to. Failing this the Committee would have no option but to
nge the vessel's class.

In April 1953 a further letter was received intimating that the
el was not under survey but that she would arrive at Rio de Janeiro
rds the end of April when it was intended to dry dock her on
letion of discharge. As a result of this information a record of
veys overdue - class suspended" was assigned.

Later the Rio de Janeiro Surveyor stated the vessel was laid up
is port and that it was possible she would be put up for auction.
In reply to further enquiry the Rio de Janeiro Surveyor now states
veyors' recommendations continued.....
