

"WILLIAM LUCKENBACH"

Seattle 2506.

This ship was built in 1913 under the survey of the Germanischer Lloyd.

A proposal to class the ship with this Society was dealt with on the 26th February last.

and  
Reports by the Seattle/ San Francisco Surveyors were considered by the American Committee on the 20th ultimo, when the Class 100A1 "Shelter Deck With Freeboard" and notation of S.S.No.3 were assigned, together with a record of A&CP.

It is submitted Mr. French be informed that in accordance with the present Rules, and as approved on the 26th February last, the ship has been classed 100A1 "With Freeboard" and further that, as the shell plating has been drilled, a notation of 2nd S.S.No.3 has been assigned.

The equipment on board complies with the Rules and is reported in good condition, but full particulars of the tests are not given and the Rules have not been complied with as regards the record of Lloyd's A&CP.

The record A&CP, referred to above, should therefore not be inserted.
