

31st October, 1942.

Dear Sir,

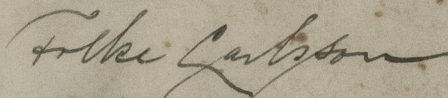

With reference to your report No.1974 on the steamer "BETTY H.", I have to state that the notation "No later survey reported" has already been made by the General Committee in respect of the class of this vessel. Further, the 3rd Special Survey No.3 was due in September, 1941, and the year of grace has therefore expired. The Screwshaft Survey was due in July, 1941, and is now 15 months overdue.

In these circumstances, before dealing with your report the Swedish Committee desire to know what arrangements the Owners propose to make for the above outstanding surveys to be held.

I may add that the vessel was examined in dock at Stockholm in September 1941, but consideration of the record of this inspection is deferred pending further information regarding the outstanding surveys. The class is subject to repairs to damaged plating forward (p & s) first convenient opportunity.

I am, Dear Sir,

Yours faithfully,

Clerk to the
Classification Committee.

Ossian Tybeck, Esq.,
HELSINGFORS.
