

COPY.

21st December 1906.

Gentlemen,

M

I have to acquaint you that I am today forwarding to your address under separate cover a report received from the Society's Surveyors at Hamburg on the steel masts and spars made by Messrs. Blohm & Voss and steel rigging made by the Rheinische Stahl Werke, and intended for use in the sailing ship No. 253, building under your survey by Messrs. Burnmeister & Wain.

The approved plans of the masts, spars and rigging are also being sent, and I have to request that you will be so good as to return all these documents to this Office in due course upon the completion of the vessel.

I am, Gentlemen,

Your obedient Servant,

pro Secretary.

The Surveyors,
COPENHAGEN.
