Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

24th August, 1925.

Dear Sirs,

With reference to Rotterdam Report No. 14379c on the machinery of the motor vessel "Kalendrecht", and to Rotterdam Report No. 14112c on the machinery of the S.T. "Domino", recently received at this Office, I have to point out that the certificate number of the boiler test is the same in the case of both vessels, viz-No. 805.

In the circumstances, I have to request that you will state whether this is correct, as in the event of one of these boilers being taken out and fitted in another vessel, some confusion is likely to occur.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,
ROTTERDAM.
