

Rotterdam reports 14112 & 14379

It is submitted that the Rotterdam
Surveyor's Attention should be called to their
reports No 14379^c on the machinery of the motor
vessel Kalendrecht. & No 14112^c on the
machinery of the S.S. Domino from which it
appears the certificate No of the Boiler test
is the same viz No 805. They should be requested
to state if this is correct. ~~They should be requested~~
as in the event of one of these boilers being taken out
& fitted in another vessel some confusion is
likely to occur.
