LONDON, E.C.3.

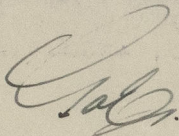

The Surveyor(s) at ABERDEEN.

Date: 19th May, 1948.

Vessel's Name: Steam Trawler "KELVINDALE".

QUESTION.

With reference to the letter dated the 16th March last addressed to the Owners to the Glasgow Office, copy of which it is understood was forwarded to you, in connection with renewal of the circulating engine impeller casing and the Boiler Survey, all be glad to learn how this stands.

ANSWER.

Date:— A copy of the letter you refer to has been received at this Office in connection with the renewal of the circulating engine impeller casing and the Boiler Survey. We have now received a letter from the Owners stating that they had hoped to complete the Boiler Survey last month but they have now informed their Agents here that this work will be carried out at an early date. They state that they will advise this office in due course but the renewal of the impeller casing has not been referred to and we will take this matter up when the vessel comes under survey.
