QUESTION

ANSWER

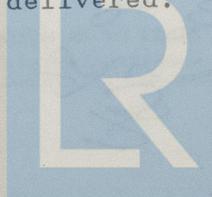

[With reference to the
Screwshaft Survey, which
becomes due at the end of
March next, I shall be glad
to learn what arrangements
are proposed to be made for
this inspection to be carried
out.

I take this opportunity
to point out that the Steam
Pipe Survey also becomes due
at the end of March.]

M.A.B.

Date:- 1st February, 1962.

The Owners state that this ship has
now arrived at Lübecker Flender-Werke,
Lübeck for conversion to a bulk carrier.
In view of the fact that the yard had
already N.V. approved plans for a
similar conversion and in view of the
short time available, they have found
it necessary to transfer the class of
the ship after conversion to Det Norske
Veritas. They would, therefore, appre-
ciate if the class of this ship can be
deleted from the 15th June, 1962, when
it is expected that the ship will be
delivered.
