RANGOON.

2295 "THIHA" - As recommended, except that assignment of the Special Survey notation has been deferred pending supply of 45 fathoms of chain cable. I have to advise you that this ship was originally supplied with 210 fathoms of $1\frac{1}{2}$ " S.Q. steel chain cable and that the renewal size for this size of cable is $1.11/32$ ". Whilst it might be desirable at this stage to renew all chain cable, the Rules only require the 45 fathoms of cable worn to $1\frac{1}{4}$ " diameter to be renewed as soon as possible, and in the circumstances I shall be glad if you will forward your further comments regarding this equipment.

I acknowledge receipt of your letter of the 13th February, the contents of which have been noted.

"NATHAMEE" 2296 - As recommended. It is concluded that the requirements of a Special Survey (C) were in fact complied with, except the testing of the boiler feed tank and the examination of mast and rigging, but your comments are requested. At the same time I shall be pleased to learn what arrangements will now be made to complete the Special Survey.
