Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

24th June, 1920.

1 Enclosure.

Dear Sir,

E. I duly received your letter of the 14th instant enclosing one from Mr. Ritchie respecting the Boiler proposed to be fitted in the Steamer "CAPRERA", and in reply thereto I have to inform you that the amended plan of the Dome, as now submitted, will be approved for a working pressure of 95 lbs per square inch, provided the Boiler be tested to 10 kilogrammes per square centimetre, after the dome has been riveted to the Boiler and the doubling plate on shell fitted, and found satisfactory.

I have accordingly telegraphed to you as follows,

viz:-

"Caprera steam dome to donkey boiler plan approved provided boiler tested 10 kilogrammes after dome riveted and doubling fitted shell and found satisfactory approved working pressure is 95 lbs".

The Plan forwarded is returned herewith.

I am, Dear Sir,

The Secretary,

Yours faithfully,

TRIESTE.
