REC'D 21 JUN 1920

ANS'D

24/6

Trieste, 14th June 1920

Via della Borsa N.º 2

Dear Sir,

With reference to the London letter of the 28th April last having reference to the Boiler ex "ERIDANO" now fitted in the steamer "CAPRERA", Messrs Martinolich's No.188, I beg to submit herewith for the Committee's consideration a sketch shewing the method now proposed for attaching the dome to the shell of the Boiler.

I may add that the holes for the doubling plate referred to in the letter above quoted were drilled before it was found necessary to modify the method of attachment.

Provided a doubling plate be fitted to the boiler shell and four stays be fitted to support the dome ends the proposal might in my opinion be approved.

I am, Dear Sir,

Yours faithfully,

W. Mitchell

P.S. A telegraphic reply will be esteemed by the builders

The Secretary, TRIESTE.
