Your Ref: GSP/RT.

2nd February, 1950.

Dear Sirs,

I duly received your letter of the 25th ultimo respecting the Steamer "TEMARA" and to say that the contents have been duly noted.

Your proposals for the carrying out of the requisite surveys on this vessel are quite in order and I am instructing the Society's Surveyors at Hull to give the case the necessary attention. As you are doubtless aware, the vessel became due for Screwshaft Survey at the end of September last and the Boiler Survey will become due at the end of the present month.

Yours faithfully,

Clerk to the  
Classification Committee.
