

s/s "Sunflower."

Nwc 82211.

The case was fully stated for the Committee in the indorsement dated 27th September 1927.

The two main boilers have now been removed from the vessel & all the combustion chambers, stays & tubes have been renewed.

The boilers have been tested to 380 pounds per square inch, found tight & refitted on board.

It is submitted that
this vessel is eligible for
THE RECORD. BS 12.27.

without special restrictions.

AWD.

6/1/28.
