25th January, 1962.

C.

DHGK/MAL Dear Sirs,

Motorship "HIYEHARU MARU"  
Refrigerated Cargo Installation.

With reference to your letter of the 13th instant, the New Orleans Surveyor stated in 1960 that the aft gas condenser had been examined, although this item was not mentioned in his report. If, however, the Surveys Book on board shows that the aft gas condenser was tested in accordance with the Rules it will be accepted. Your remarks about the inboard gas evaporator are correct, and I apologise for not making it clear that, according to the records here, the outboard gas evaporator is outstanding.

Your further comments on both these matters will be appreciated as soon as possible.

Yours faithfully,

Deputy Clerk to the  
Classification Committee.

The Surveyors,  
KOBE.
