

Japanese steamer "HAKUSAN MARU"

Class: ~~M~~100A1.

The Yokohama Surveyors report that freeboards have been assigned by the Japanese Government.

Freeboard is not a condition of class.

The freeboards now assigned are the same as those assigned by this Society under the Japanese Load Line Law.

It is submitted the present record of freeboard and draught might remain in the Register Book, and the Yokohama Surveyors informed that it has been assumed the freeboards have been marked from the upper surface of the wood deck as originally marked, and not from the steel deck as now reported, but they should state if this assumption is correct.

Wm. B.
