This is to certify that the undersigned H. Rösler, Sworn Surveyor, did at the request of the Master of the British Steamship "RALOO" and acting on behalf of Mr. J.P. Gately, Surveyor to Lloyd's Register of Shipping, Bremerhaven, attend on board the

s.s. " R A L O O " of Belfast

of 1367,65 tons gross as she lay afloat at the Erzkai at Emden on the 3rd April, 1950 in connection with a leakage from the lower right hand flange of the seam of a patch that had been welded on the back plate of the centre furnace combustion of the port boiler. The seam was drilled and at ends weed and rewelded. The work being performed by the shipyard Nordseewerke and

That after examination of the work, during process and after completion, consider the same to have been properly carried out and the ship to be in a fit condition for the voyage with her cargo of scrap iron from Emden to the United Kingdom where she should undergo further examination.

Emden, 4th April, 1950
