

"DEMIR"

The 2nd S.S. No.1 was due in March 1942 and has *been* partially carried out.

At the request of the Owners a Year of Grace was granted for the completion of this Survey. This expired in March 1943.

The Owners now state that it is impossible to carry out the remainder of the Survey and repairs and request a further extension of one year.

It is submitted the Owners be informed that the Special Survey should be completed or a General Examination be held in lieu. A copy of the letter and of Circular 1772 should be sent to Lloyd's Agents who should be requested to inform this Office as to the Owners' intentions. Lloyd's Agents should also be informed that if the Owners do not make any of the desired arrangements at an early date they should inform the Owners that the question of the classification of this vessel will be submitted for the consideration of the Committee.
