

S.S. "WATERBUCK".

I made further inquiry of the Secretary of the Company to-day, and he stated that their brokers, who were negotiating the sale of the vessel, were hopeful of disposing of her very shortly, and that the price asked for the ship included the cost of the general examination for continuance of classification.

He added that he would at once advise this Office of any fresh development in the situation.

4th January, 1928.
