20th October, 1926.

Dear Sirs,

I beg to acknowledge the receipt of your letter of the 7th instant respecting your Steamer "WATERBUCK", and to acquaint you that the case has been placed before the Committee who have again deferred consideration of the same for the present.

In reply to your enquiry, the Committee desire me to say that with a view to meeting your convenience, they will be agreeable to this vessel being surveyed at Chinde, before she is again placed in commission, by a Surveyor appointed by Lloyd's Agent at that port, and that provided the Boiler Survey be then held and the vessel be submitted to a general examination and be found or put in an efficient condition to proceed to Durban or East London for survey, the Committee will not object to her making a voyage to either of these ports in order to carry out all necessary repairs, the overdue Second Special Survey No.1 and the survey of the screwshafts.

I am, Dear Sirs,

Yours faithfully,
