L O N D O N.

CHINDE, 3rd Sept.1926.

No.103/26.

S.S. "Waterbuck" We thank you very much for copy of letter from Lloyd's Register of Shipping attached to your No.103, and in reply to which we beg to inform you that, as you know the s.s. "Waterbuck" is still laid up in the harbour of Chinde, and so far as survey of port boiler and screw shafts are concerned, please note that nothing has been done so far. You would oblige us by letting us know by return whether we have to apply to Lloyd's Agents at ours for the surveys to be effected, as we are of the opinion that this is not necessary seeing that the vessel is laid up.
