oil engines

Port of Registry Nassau, B.P.

ey Due Modified Survey of Oil Engines due July, 1932

In January last the Owners stated that it would best suit their convenience to have the above survey held at **Nassau (Bahamas)**, and in the circumstances Lloyd's Agents at that port were requested to appoint a competent and independent Surveyor to carry out the survey in question.

Writing on the 31st March last Lloyd's Agents at **Nassau** stated they had been informed by the Owners they did not intend to have the survey held then and that probably it would not be held for at least two months. In the circumstances it was pointed out to the Owners that the survey was already nine months overdue and they were requested to arrange for it

"SIR CHARLES ORR"

-2-

to be carried out with as little delay as possible.

Lloyd's Agents now state that the Manager of this vessel is now in England, and they understand he proposes to have nothing done regarding the above survey before he returns which they add will probably be in August or September.

*Submitted for the consideration
of the Committee.*
