Survey Due Modified Survey of Oil Engines due July, 1932.

In January last the Owners stated that it would best suit their convenience to have the above survey held at Nassau (Bahamas) and in the circumstances Lloyd's Agents at that port were requested to appoint a competent and independent Surveyor to carry out the survey in question.

Lloyd's Agents at Nassau now write that they have been informed by the Owners that it is not their intention to have the survey carried out at the present time (March 31st) and that they will probably not do so for at least two months.
