

NON-PROPELLED FLOATING CRANE.

Yka. 5918.

Reports have now been received from the Yokohama Surveyors stating that the crane machinery has been constructed under survey and in accordance with the Owners' specifications.

The main driving engine including the winches and all the auxiliaries have been constructed in accordance with the Rules and approved plans together with the donkey boiler, electrical installation and pumping arrangements.

As this floating crane is non-propelling, and the donkey boiler is only used for heating accommodation, it is submitted no further action is necessary regarding the machinery.
