

S.S. "WRAY CASTLE".

---

This is one of the ex-German Steamers handed over to this country at the conclusion of the war, and subsequently surveyed and classed by this Society.

She appeared in the Germanischer Lloyd Register as having been launched in 11,16, with a date of first official registration of 3,17, and she was entered into this Society's Register Book with a date of build of 1916.

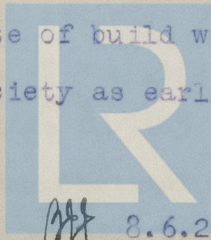

The question of assigning a later date of build was discussed with the Owners in January 1925, and was reconsidered in March 1925, when it was decided that no action should be taken.

The Owners now forward a copy of a letter from the Builders of the ship, which gives the following particulars of the vessel:-

Launched:-	27th November 1916.
Machinery installed:-	July 1919.
Delivered:-	23rd July 1920.

In view of the above particulars now ascertained, the Owners apply for a date of build of 1920.

The Owners' request is submitted for consideration, it being observed that in any case, if the ship was launched in November 1916, her date of build would not ordinarily have been recorded by this Society as earlier than May 1917.
