# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

11th April, 1947.

Dear Sirs,

Steamer "EMPIRE CONSEQUENCE"

S.

The Committee have today had before them a report of survey carried out by the Society's Surveyors at London (January 1947) from which it is noted that a General Examination has been held in drydock together with a Boiler Survey.

From the parts seen by the Surveyors the vessel is considered to be in a satisfactory condition to trade for a period of 12 months and the Committee have accordingly assigned a notation of "Examined L.R. 1,47" together with a record of B.S. (W.T.) 2,47 (235 lb) but subject as previously recommended to cocks being fitted to the water gauge connections.

Yours faithfully,

Messrs. Shipping & Coal Co., Ltd.,  
37-38, Fenchurch Street,  
LONDON, E.C.3.

Clerk to the  
Classification Committee.
