RECEIVED

LLOYD'S REGISTER OF SHIPPING

CALLE ALMIRANTE SEÑORET No. 48

Valparaiso, 5th April 1963.

Dear Sir,

"INDUS 14"

"INDUS 11"

With reference to my cablegram of the 28th March concerning the Special Survey of the above vessel I have now received a letter from the Santiago office of the Owners to the following effect.

The Owners intimate that they maintain their vessels to a standard suitable to themselves and feel that it is unnecessary to submit the vessels to the Special surveys as required by our Rules. Whilst thanking us for our good attention and technical advice, they have reluctantly decided to drop classification on all the vessels of their fleet at present classed with us, as each vessel becomes due for Special Survey. It is not their intention to classify their vessels with any other Society.

The decision will have immediate effect on the above vessel and the "INDUS 16". The Owners Superintendents, I may add, are not in agreement with this decision of their Head Office and have stated that they will miss the guidance and help which they have always received from this office.

Yours faithfully,

N. Williams

The Secretary,
LONDON
