LLOYD'S REGISTER  
LONDON.

KOBE, 5th November, 1920.

REC 13 DEC 1920  
ANSD

Dear Sir,

In reply to the classification letter of the 24th August regarding the steamer "HAVRE MARU", I have to state that a web frame 24" x .44 with double face angles was fitted at frame No.85 in the engine and boiler room space, that the sheerstrake is doubled at ends of bridge also that the 3rd bower anchor, steel wire tow line, hawsers and warps are all as required.

I am, Dear Sir,

Yours faithfully,

*A. G. House*

The Secretary,  
LONDON.

*Appl 7/12*
