

DISCLASSE

SECTION

No. 718 4

Steamer "KORMORAN"  
Now named "MARGARITA".

Special Survey due April, 1958.

In February, 1958, the former German Owners were informed that a postponement of the Special Survey might be granted if a satisfactory General Examination, including drydocking, were held, but that the period of the postponement would be determined by the condition of the ship.

The vessel was laid up in April, 1958, and the General Examination was never held, the ship being sold to Greek buyers in July.

On the 17th July, the Hamburg Surveyors were informed from this Office that it was concluded the General Examination was being held.

It now transpires that the new Owners have transferred the class to the Germanischer Lloyd. The ship arrived at Piraeus on the 3rd October.

*Re*

28th October, 1958.
