Handwritten signature

The First Special Survey No. 1 became due on this vessel in August 1924, and action has been deferred by the Classing Committee from time to time owing to the Steamer having been laid up on the Great Lakes, the late Owners having furnished the usual undertaking in September 1925.

She has recently been sold, and as the new Owners have intimated that it is not their intention to maintain the vessel's classification in the Register Book, the Classing Committee, who again had the case before them on Tuesday, the 21st instant, decided to give instructions for the vessel's class to be purged from the Register Book with a red line (), indicating non-compliance with the Society's Rules, and the new Owners have been informed accordingly.

Handwritten signature

23rd June, 1927.
