Re "John Catling"

Having purchased the above steam trawler from the Admiralty, built by Messrs Harland & Wolff in 1918, to the requirements of British Corporation, we are desirous of having this vessel classed at Lloyds. Your surveyor, Mr. Johnston of this port has surveyed this vessel & we have done all work which he has asked us to do. Would you please inform us at your earliest, if this vessel can be taken on under your classification rules?

Re "Richard Crofts" & "John Catling"

We should be pleased to know if & after survey of the above named vessels, both having been bought from the Admiralty, East of the T. The "Richard Crofts" built by Messrs Harland & Wolff in Dec 1918, whether you will allow these vessels to count this survey as an additional one & allow us to run them for four years before the next survey is due?

Yours faithfully

E. W. Davis

Managing Director
