S/S "POLLENZO"

Dear Sirs,

I duly received your letter of the 22nd ultimo, in connection with the proposed reclassification of the above ship, and have to inform you that the bulkhead between Nos. 2 & 3 holds can be accepted as a non-watertight bulkhead, provided a suitable notation respecting the omission of an intermediate watertight bulkhead be made in the Register Book.

If an assignment of Panamanian freeboard is urgently desired Reports C.II and C.II (Comp) should be forwarded to this Office. If, however, the matter is not urgent these reports should be forwarded to New York.

Yours faithfully,

P.C. FBD DEPT

Secretary.

The Surveyors,
LISBON.
