The Manchester Surveyors forward a letter addressed to them by the Mechanical Engineer to the Manchester Ship Canal Company, in which he writes:-

"This craft is due to be placed on the dry dock for the purpose of examination of hull, machinery, etc., about March of next year, where, if so desired, an examination could be made of the screw shaft of the vessel.

"As explained to you, whilst the vessel is constructed for self propulsion it is only at very intermittent periods that the engines are actually used for this purpose as the dredger, whilst at work, is manoeuvred by mooring chains and
