

C O P Y

# Lloyd's Register of Shipping.

Port Kobe.

10th April, 1941.

## CERTIFICATE OF WATER TEST

This is to Certify that

Y. Hamada & K. Takedaya,

the undersigned Surveyor to this Society did at the request of  
Messrs. Nippon Yusen Kaisha, Ltd., survey the "C" Deep Tank of the  
M.S. "AZUMA MARU",

6646 tons gross, of Tokyo,

whilst the vessel lay afloat at this port.

This Deep Tank was tested on the 4th April, 1941,  
by a head of water to the weather deck, and upon examination,  
the boundary bulkheads, tank top, hatches, ventilators and  
other connections were found sound and tight.

The Double Bottom Tank in way of this Deep Tank was  
tested on the 2nd April, 1941, by a head of oil fuel to the  
weather deck and found sound and tight.

The heating coils in this Deep Tank were tested to  
twice the working pressure and found tight.

This Deep Tank is considered fit to receive a shipment  
of Cargo Oil in bulk subject to examination for cleanliness before  
loading.

K. Takedaya  
( for Y. Hamada & Self.)  
SURVEYOR TO LLOYD'S REGISTER.

Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—  
While the Committees of the Society use their best endeavours to ensure that the functions of the Society are  
executed, it is to be understood that neither the Society nor any Member of any of its Committees is under any  
liability whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its  
Committees, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or  
negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
