L.L. CERT. EXPIRES
A.L.L. SURVEY DUE

Survey(s) and/or conditions class under review..... Donkey Boiler Survey due 12.58. } Postponed
 Port Screwshaft Survey due 10.58. } until 8.59.

Standing items partly held) Hull Subject:- See endorsement 10.3.59.

Postponements already agreed Postponement of the port Screwshaft Survey until July, 1959 approved 21.1.59. On the 7th August the Committee agreed, with some reluctance, to a further short postponement of the port Screwshaft and Donkey Boiler Surveys until the ship's arrival at Suez at the end of August, 1959, insisting that this arrangement be adhered to if the vessel is to maintain her class.

proposal The Suez Surveyor now reports that the vessel came under inspection for Port Clearance Safety Equipment Survey on the 23rd July. The Owners' representatives then stated verbally that the vessel was bound for Hong Kong in cargo for sale and breaking up. The Surveyor states that the vessel left Suez on the 26th July. According to Lloyd's Shipping Index dated 20.8.59 the vessel sailed from Jeddah on 29.7.59 for Makalla.

Technical recommendation

Submitted for consideration in view of previous decision
