Enclosure

7th August, 1959.

Dear Sirs,

m.s. "RYAD"

In confirmation of my cablegram to you today as per copy attached, I have to acquaint you that the case of this ship has been considered by the Committee today and they are surprised to learn that the Owners have not arranged for the Port Screwshaft Survey to be held in accordance with their decision of the 21st January last.

The Committee have, with some reluctance, agreed to the further short postponement, but they desire you to inform the Owners that this survey, together with the Donkey Boiler Survey, must be held on the ship's arrival at Suez by the end of this month if she is to retain her class.

A copy of this letter has been sent to the Society's Surveyor at Suez.

Yours faithfully,

c.c. Suz

Deputy Clerk to the  
Classification Committee

The Surveyors,  
GENOA.
