RECEIVED

15 JUN 1959

Ans'd.....

Genoa, 12th June, 1959.

Dear Sir,

M/S "RYAD"

Your letter of the 10th instant is to hand and the contents of which have been carefully noted.

We have to state that the Donkey Boiler Survey was not carried out at this port in January/February, and a reference to the overdue survey with the verbal statement made by the Owners Representative at that time was recorded in Genoa Report No.23981. However we have written a letter today to the Owners Representative here in Genoa requesting their stated intentions with regard to the overdue Donkey Boiler Survey, and upon receipt of Owners reply you will be informed of their intentions.

Referring to the penultimate paragraph of your letter, we informed the Master of the vessel of the decision by the Committee to allow the port screwshaft survey to be deferred until July next. (Copy of our letter attached herewith).

Yours faithfully

R. Elliott
(R. Elliott).
