

Kobe

5th February, 1919.

The Secretary,
London,

Sir,

Messrs. Fujinagata Zosensho of Osaka have requested their vessel No. 31 to be classed ~~Class~~ 100A1 in Lloyd's Register and to have freeboard assigned. This vessel is a sister to their No. 26 S.S. "YORO MARU No. 2" Kobe Rpt. No. 2306, and others with a few alterations in scantlings owing to difficulty in obtaining material. This vessel is to be launched on the 17th instant in the mean time I have tested tanks and made survey and everything appears to be in order. The steel is mostly American and all tested.

Under separate cover I am forwarding plans of Section, Profile, expansion plating, Tank top, Bulkheads and Forging plan, all in duplicate.

Kindly cable if vessel may be classed.

Freeboard report will follow.

I am, Sir,

Your obedient servant,

S. D. Cusker
Lloyd's Register
