TS (4) 9.22

Survey Due

2nd Special Survey No.1 due 7.23 (Partly held).
2-years' limit on screwshaft (to examine) expired 7.24.

To complete the 2nd Special Survey No.1, the wood deck requires to be repaired as necessary, and action in the matter was deferred by the Committee in November last as the Grimsby Surveyors stated the deck had been examined and found efficient and that they were informed the necessary repairs would be effected at the vessel's annual refit in May, 1925.

On the 1st May the Grimsby Surveyors were requested to inform the Owners that the Committee considered the survey of the screwshaft and the completion of the 2nd Special Survey No.1 must receive attention by the end of June in order to entitle the vessel to retain her class.

On the 3rd instant the Grimsby Surveyors wrote they were endeavouring to obtain a definite decision from the Owners in regard to the above matters. In the circumstances the Committee deferred action for a fortnight and the Surveyors were requested to point out to the Owners that if the necessary surveys were not taken in hand at once, the Committee would have no option but to deal with the vessel's class.

In reply to enquiry the Grimsby Surveyors write they are unable to obtain any definite information from the Owners regarding this case, and that in their opinion, no useful purpose would be served by granting any further extension of time for the completion of the Special Survey.

It is submitted the vessel's class should be expunged from the Register Book with a red line & date (—) indicating non-compliance with the Society's Rules.
